

An Introduction to R
(3 ECTS/2 SWS)
Winter Semester 2013/14

Noémie Becker (NB) & Sonja Grath (SG)

Place & Time:

Lectures will take place March 3, 2014 till March 14, 2014. Each lecture will be followed by an exercise session.

The afternoons are for preparing the exercises. We will reserve computer rooms for the afternoons and one of the instructors will be available for questions, however, you can work on the exercises where you like.

Note that there will be NO course on March 10 and that on March 11 the lecture and exercises will take place in the afternoon (time/room – tba).

First lecture:

Mon, Mar 3: 9:00-12:00, **B01.027**

Then:

Tue, Mar 4 - Fr, Mar 7 AND Wed, Mar 12 - Fri, Mar 14:

Lecture: 9:00-10:30

Correction of the exercises: 10:30-12:00

Room: **B01.027**

Grading/Exams

You can get a graded certificate by passing a written exam at the end of the course.

Though we highly recommend to attend the classes, attendance is not a necessary requirement for exam admission.

In case you are only interested in getting a certificate of attendance (without grade), active participation (usually shown by attending the lectures and exercises and presenting at least one of the exercises in class) will be required.

Final Exam: March 17, 2014 (room and time tba)

A ***make-up exam*** will be offered on ***April 7, 2014***. If you want to participate in the make-up exam, you must register with Noémie Becker (nbecker@bio.lmu.de) by ***April 1, 2014***. Students may only participate and/or be able to improve their grades in the make-up exam if it is permitted by the exam regulations (“Prüfungsordnung”) of their academic program.
