

**An Introduction to R
(3 ECTS/2 SWS)
Winter Semester 2019/20**

Instructors:

Dr. Noémie Becker (nbecker@bio.lmu.de, lectures and organization)
Dr. Eliza Argyridou (argyridou@bio.lmu.de, exercises)
Prof. Dr. Dirk Metzler (metzler@bio.lmu.de)

Place and time:

Lectures will take place **March 2, 2020 till March 12, 2020 from 9:00-12:00 in G00.001.**

The lectures are accompanied with exercises.

In the afternoons, there is time for preparing the exercises. We have reserved computer rooms (C00.005 and G00.037) and a room for students with own laptops (D00.009) every day from 13:00 to 17:00. A tutor will be present for questions, however, you can work on the exercises where and when you like.

Passing the course:

General requirement

To pass this course and to get 3 ECTS credits, you have to pass the exam (receive grade 4.0 or better).

Final Exam:

March 13, 2020 (10:00 – 11:30, B 00.019)

A **make-up exam** will be offered on **April 2, 2020 (10:00 – 11:30, room to be announced).**

If you want to participate in the make-up exam, you **must register** (send an email to nbecker@bio.lmu.de) by **March 26, 2020.**

Students may only participate and/or be able to improve their grades in the make-up exam if it is permitted by the exam regulations (“Prüfungsordnung”) of their academic program.

The questions in the exam refer to the whole content of the course including lectures and exercises. The handouts will be posted online but may contain only a summary of the contents of the slides shown in the course. More detailed explanations are given on the whiteboard and with practical demonstrations during the lectures. Joining the lectures and preparing the exercises is therefore highly recommended.

Course webpage and online material:

http://evol.bio.lmu.de/_statgen/Rcourse/ws1920/

Please visit the webpage regularly. All material for the lectures and exercises will be deposited there and we will post important information (room/time change) at this place.
